18. PROMOTION OF INDOOR AND OUTDOOR PHYSICAL ACTIVITY

Little Angels Playhouse strongly believes and supports the need for physical activity each day. When children participate in physical activity every day, multiple health benefits accrue. Regular physical activity builds healthy bones and muscles, improves muscular strength and endurance, reduces the risk for developing chronic disease risk factors, improves self-esteem, and reduces stress and anxiety. Beyond these known health effects, physical activity may also have beneficial influences on academic performance. In addition, cognitive skills and motor skills appear to develop through a dynamic interaction. Research has shown that physical movement can affect the brain's physiology.

- Infants will be given opportunities for physical activity, including supervised tummy time.
- Toddler age children will participate a minimum of 60 minutes of moderate to vigorous active play each day.
- Preschool and Pre-Kindergarten children will participate a minimum of 90 minutes of moderate to vigorous active play each day.
- School age children who are in attendance for a full day will participate a minimum of 90 minutes of moderate to vigorous active play each day. School age children who are only in attendance afterschool will participate a minimum of 30 minutes of moderate to vigorous active play each day.

Opportunities for active play may overlap with outdoor play when weather permits. Little Angels Playhouse will promote all children's active play every day. Children will have ample opportunity to do moderate to vigorous activities, such as running, climbing, dancing, skipping, and jumping, to the extent of their abilities. All children will participate each day in:

- Two occasions of active play outdoors when weather permits.
- Two or more structured or teacher-led activities or games that promote movement over the course of the day.
- Continuous opportunities to develop and practice age-appropriate gross motor and movement skills.

When participating in physical activity, children's clothing should protect them from sun exposure and permit easy movement (not too loose and not too tight) that enables full participation in active play. Footwear should provide support for running and climbing. Hats may be worn to protect children from sun exposure.

Physical activity may take place in the classroom or on the playground, when weather permits. When weather conditions prohibit outdoor play, physical activities will occur in the classroom during the scheduled outside time. Classroom teachers have activities planned in advance for "rainy days".

19. SUNSCREEN/BUG SPRAY POLICY

Parents are requested to read our **Staff Babysitting Policy** and sign a waiver form to release Little Angels Playhouse of any responsibility while employees are away from our facility.

BITING

Biting is a common issue in early child development. The best way to deal with biting is consistency between providers and parents. Biting could occur for multiple reasons. Proper communication will help determine why a child is biting. Little Angels Playhouse will work with parents when biting becomes a problem. We will make every effort to solve the issue as soon as possible.

CUSTODY SITUATIONS

Little Angels Playhouse will follow a court order exactly as written. If your family has a court order on file, please provide us with the most recent copy. It must be certified by the judge.
